Long Beach Water Dept.  
Lawn to Garden Project  
Attn: Joyce Barkley

**Applicant:**

3625 Senasac Ave  
L. B., 90808

This is a list of the drought-tolerant plants from which I would like to select for my project. I won't use them all, but this allows me some flexibility to work with in case I can't find certain ones.

**Bushes:**

- |                    |                        |
|--------------------|------------------------|
| 1. Toyon           | 6. Buckwheat--various  |
| 2. Mexican Lobelia | 7. Sunrose             |
| 3. Lantana         | 8. Rockrose            |
| 4. Coyote Bush     | 9. Island Bush Poppies |
| 5. Sage--various   | 10. Cape Honeysuckle   |

**Succulents:**

1. Aloe Noblis
2. Aloe Vanbelenii
3. Crassula
4. Various others

**Grasses and ground-covers:**

1. Blue Fescue
2. Dymondia
3. Pork and Beans

**Accent Plants:**

1. "Spear" Lilies (name?)
2. plant unknown (see enclosed example)

Thank you for your time in processing my correspondence.
